

## THERMO-GRIP | 6151

### Features:

Size Range: 5 - 13

Accreditation: SANS/ISO 20345

Colour: Black

Heat Resistance: Up to 300° Celsius

Sole: Vulcanised Rubber

Upper: Genuine Leather

## COMPONENT SPECIFICATIONS

### Upper

- The upper is cut from 1.8 – 2.0mm Split Military Print Leather, which is strong and has high wearing durability.
- This is an entry level vulcanised safety shoe which has a high degree of comfort and durability. Suitable for harsh working conditions.
- The vamp lining is made from a special needed Hi-Tech Fibre blend which has excellent perspiration absorbency resulting in a low heat build up and a more comfortable shoe for the wearer.

### Insole and Insock

- The insock is made from a specially developed antistatic, non-woven material which has exceptional directional stability, durability and comfort.
- A special shank reinforcement is moulded into the midsole to give additional support under the arch of the foot.

### Vulcanised Rubber

- The rubber sole is heat resistant up to 300° Celsius and provides excellent slip resistance on most surfaces.
- This boot is non-conductive and ideal for situations where there is a high risk of electric shock.

### Toe caps

- The steel toe cap is imported from China and complies with the SABS specification to withstand an impact load of 200 joules. This toe cap has an extra-wide fit to accommodate the largest variety of feet possible, and we use 5 different sizes to cover the full size range of shoes.
